STEP 2: LOGINTOTHE ZOHO.COM

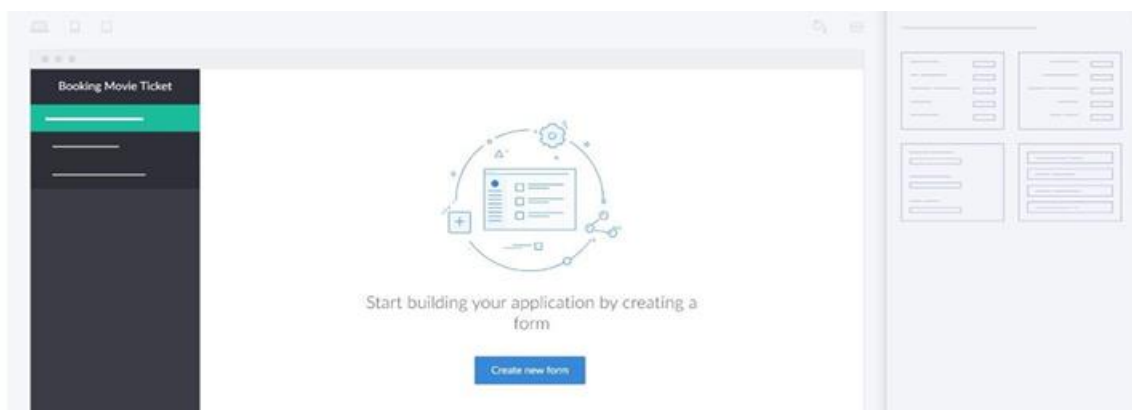

STEP 3: SELECT ONE APPLICATION:

STEP 4: ENTER APPLICATION NAME

STEP 5: CREATED NEW APPLICATION:

STEP 6: SELECT ONE FORM:

STEP 7: THE SOFTWARE HAS BEEN CREATED.

The screenshot shows a web application interface for 'Booking Movie Ticket'. On the left is a dark sidebar with a menu containing 'User Details' (selected), 'user details', and 'All User Details'. The main area is titled 'user details' and contains the following fields: 'Name' (split into 'First Name' and 'Last Name'), 'Phone' (with a country code dropdown set to '+91' and a value '81234 56789'), 'Email', 'Date-Time' (with a calendar icon), 'Theatres' (split into 'First Name' and 'Last Name'), and a 'Drop Down' menu. At the bottom are 'Submit' and 'Reset' buttons. On the right, a 'Form Customization - Web' panel shows 'Label placement' options with various input field layouts.

This screenshot displays the form customization interface for the 'user details' form. On the left, a 'Basic Fields' panel lists icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down. The central area shows the form fields as they will appear: Name, Phone, Email, Date-Time, Theatres, and Drop Down. On the right, the 'Field Properties' panel for the selected 'Name' field includes: 'Field name' (set to 'Name'), 'Field link name' (set to 'Name'), 'Validation' (with a 'Mandatory' checkbox), 'Display Fields' (with checkboxes for 'Prefix', 'First Name', 'Last Name', and 'Suffix', where 'First Name' and 'Last Name' are checked), and 'Data Privacy'. A 'Done' button is located at the top right.

Result:

The library book and reservation created successfully.
